Reissue Applications

1. Applicants have submitted an offer to surrender the original patent. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

The prosecution can be expedited if the applicants submit the original patent with the next communication.

Defective Reissue Oath/Declaration

- a. The oath or declaration must identify the specification to which it is directed as required by 37CFR 1.63(a)(2).
- b. The oath or declaration must state that the person signing acknowledges the duty to disclose to the Office all information known to the person to be material to patent ability as defined in 37 CFR 1.56 as required by 37 CFR 1.63(b)(3).
- c. The oath or declaration must identify at least one error being relied upon as a basis for the reissue and it is indeed an appropriate error for reissue (37 CFR 1.175(a)(1)). Applicants must specifically mention how the errors being rectified by amended claim 1; and how the reissue overcomes the defect in the original patent; e.g.; describe how the newly presented or amended claim 1 differ from those of the patent.

Claims 1-17 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Art Unit: 2672

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."
